

FROM HAIRCUT TO HAIRPIECE

WIGS FOR KIDS

How Your Ponytail Helps a Child in Need

PREPARING FOR DONATION

Hair must be at least 12 inches long, measured from the top of the ponytail to where the hair starts to thin, as shown by the line on the ponytail stick.

LONGER IS BETTER

Consider waiting until your ponytail is at least 14" -- this allows for more options in hairstyles for our kids.

NO PERMS, DYES OR HIGHLIGHTS

Hair dyes and highlights damage the hair, making it unusable in our hair pieces. Follow the QR code for more information.

GRAY HAIR IS ACCEPTED

SCAN ME

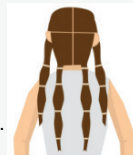

FILL OUT DONATION FORM ONLINE AND MAIL THE HAIR

Make sure hair is completely dry before sending -- wet hair will grow mold (yuck!) and must be thrown away.

PONYTAIL IS CUT

Separate hair into 4 to 6 sections for a more generous donation. Tie tightly with several rubberbands to make sure the hair stays secure. Loose hair is unusable.

HAIR IS SORTED BY STAFF AND VOLUNTEERS

All hair is double checked to make sure it meets our standards.

USABLE HAIR IS SENT TO THE MANUFACTURER

The hair is then treated in a chemical bath to sterilize it. Dyed hair will disintegrate during this process, which is why we need natural unprocessed hair.

A WIG CAP IS CREATED

Each recipient gets a specially designed cap to best fit their head size and shape, making sure it stays firmly in place for even our most active kids.

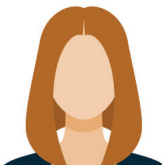

PONYTAILS ARE GATHERED TOGETHER

It takes 20 to 30 ponytails to make one hair piece! Hair is blended to create a natural look.

HAIRS ARE HAND-TIED STRAND BY STRAND

To create the most natural looking hair piece, the hair is hand tied into the wig one strand at a time.

HAIRPIECE IS DELIVERED TO A CHILD IN NEED

Wigs for Kids serves children experiencing medical hair loss, helping them to look themselves and live their lives.

SPONSOR A CHILD

The Wigs for Kids program provides products, services and support to participating children and teens at no cost to their families. All this is possible through your generous support. Please consider making a monthly donation to help our children. Scan the QR code to learn more.
